

Meadow Butterflies & Plants (2)

September

Watercress
Nasturtium officinale
flowers May to Oct ↻

Large and Small Whites are called Cabbage Whites by gardeners

Large white caterpillar on watercress

Large White
Pieris brassicae

+ hoverfly on spear thistle!

Gardeners may be pleased to know that the Large White doesn't just lay eggs on their **cabbages** but is also fond of the **nasturtium** family including watercress
